

MN Chief Engineers Guild

Registered Employers & Employee Licensing or Registration

Presentation by: Steven Dudley

Electrical Work

- Installing
- Altering
- Repairing
- Planning or
- Laying-out of
 electrical wiring or equipment for
 electrical light,
 heat,
 power,
 technology circuits or systems

Technology Circuits or Systems

Class 2 or class 3 circuits or systems

- Remote control
- Signaling,
- Alarm and audio signal and
- Associated components

Technology Circuits or Systems

 Antenna and communication circuits or systems

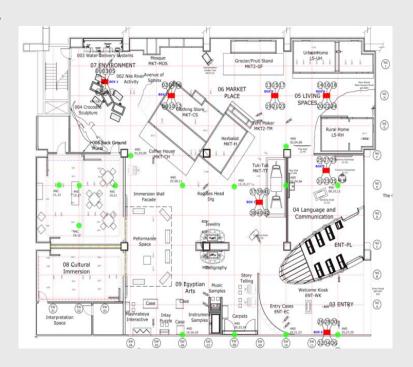

Indoor lighting and outdoor landscape lighting systems when they are 30 volts or less

Master Electrician

- Licensed by the commissioner
- Training
- Experience
- Plan & lay-out
- Install & supervise all types of electric work

Journeyworker Electrician

- Licensed by the commissioner
- Training
- Technical knowledge

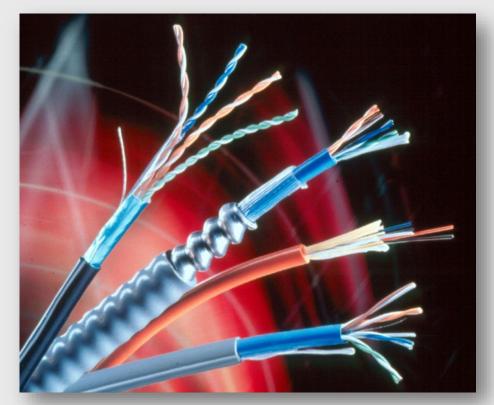

• Excluding planning or laying-out of

electrical work

Power Limited Technician

- Licensed by the commissioner
- Training
- Experience
- Plan & lay-out technology circuits or systems

Maintenance Electrician

- Licensed by the commissioner or
- Exempt by statutes
- Training
- Experience
- Maintain and repair electrical wiring, apparatus, or equipment

Contractor

- Licensed by the commissioner
- Performs or offers to perform electrical work
- With or without compensation

A responsible Master license is required to obtain an electrical contractor license.

A contractor's license does not qualify its holder to perform or supervise the electrical work.

Contractor's License Required

- No individual other than a licensed employee
 - of a licensed contractor
- Shall perform electrical work

Insurance Required

- ▶ Each contractor shall be insured and bonded
 - \$100,000 per occurrence and
 - \$300,000 bodily injury, and property damage
 - \$25,000 bond held by the state

Employment of AM or PLT

- Master electrician or power limited technician
 - Responsible for supervising all electrical work
 - Compliance with the National Electrical Code

Employment of AM or PLT

- Limited to the classes of work
 - The responsible Master or Power Limited Tech

(1) Supervised by an individual licensed to perform the electrical work being supervised;

(2) Physically present at the location

(3) Immediately available at all times for assistance and direction;

Electronic supervision does not meet the requirement

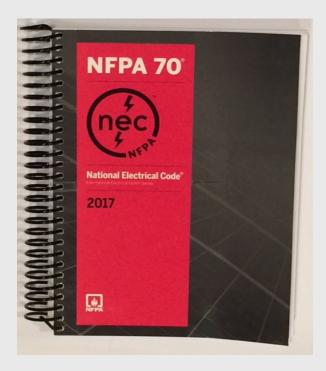

(4) Shall review the electrical work before the electrical work is operated; and

(5) In compliance with the National Electrical Code

Unlicensed Individuals

Shall not perform electrical work unless registered with

the department

Supervised by a licensed person

Shall be employed by the same employer as the supervising licensed person.

Unlicensed Individuals

Shall not supervise work or make assignments of electrical work

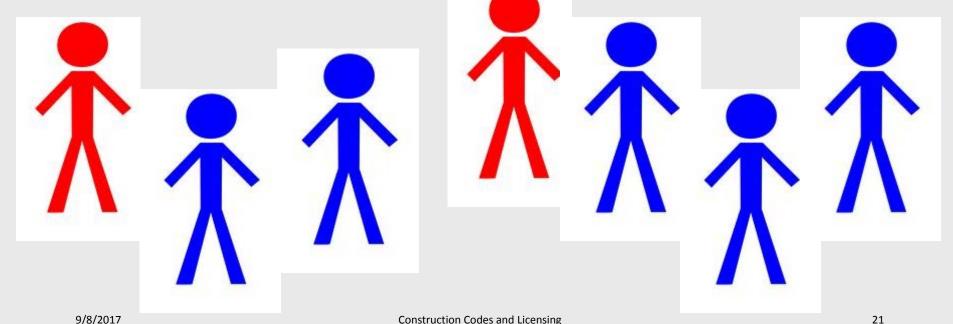

Supervision Ratio

▶ Electrical work = no more than two unlicensed individuals.

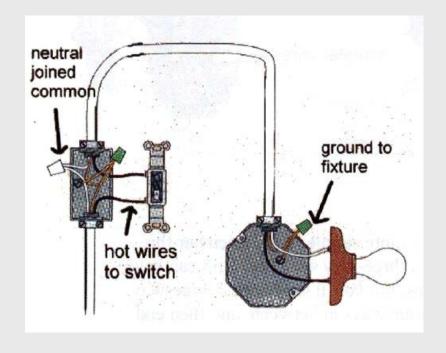

► Technology work = no more than three

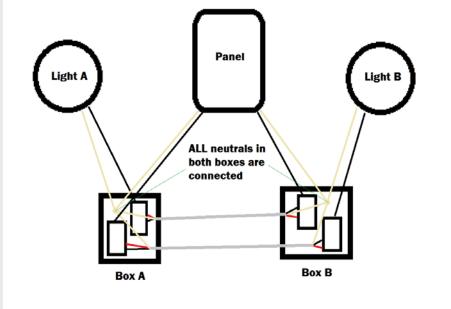

unlicensed individuals.

Compliance

The licensed individual ensures the electrical work complies with the National Electrical Code

Licensed Contractor

Registered Unlicensed Employee's

The determination that the registered employee's qualifications are adequate, is the responsibility of the supervising licensed person.

2-Types of Maintenance Electrician

- Licensed Maintenance Electrician
- Registered person provided with supervision

The supervision is general and is not the "direct supervision" defined in Minnesota

Statutes

Maintenance Work

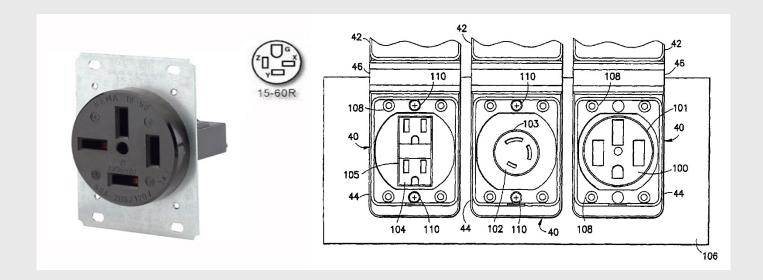

- The adjustment or repair or replacement of worn or defective parts of electrical equipment and
- Replacement of defective receptacle outlets and manual switches for lighting control

Replacement of receptacle outlets of any voltage, phase, system, or amperage with devices having identical characteristics

AND....

Replacement of manual lighting switches of any voltage with devices having identical characteristics

AND....

Replacement of motors of any voltage, phase, system, or horsepower with a motor having the same characteristics

AND.....

- Repair of motor controllers
- Identified as factory replacement parts

AND.....

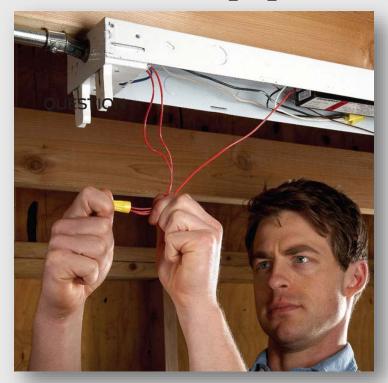

- Repair or replacement of defective circuit breakers
- Factory parts or replacements

AND.....

- Repair of defective lighting fixtures using approved replacement parts
- Bench repair of electrical equipment

Work Not Allowed

- Replacement of existing lighting fixtures
- Installation of temporary wiring
- Replacement of an item that is not identical
- Lighting retrofit
- Building automation system
 - Includes power limited systems

AND....

Work Not Allowed

- Extension of electrical wiring
- Extension of technology circuit wiring
- Installation or connection of new equipment
- Installation/replacement of conductors
- Replacement of damaged wiring methods

(continued)

Other Electrical Work

- Performed by an unlicensed, registered maintenance person
- Responsible individual for the employer is a class A master electrician

Maintenance person is provided with direct

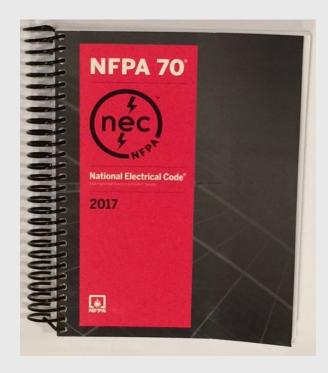

supervision

9/8/2017

Employees of the same employer

Inspection?

• Electrical work, including maintenance or minor repair work, is not exempt from the National Electrical Code.

Inspection Required?

- All electrical wiring must be inspected prior to being concealed in any manner
 - burial
 - insulation
 - encapsulation
 - concealment by floor,
 wall or ceiling covering
 or sheathing.

Inspection Required?

Electrical maintenance work is exempt from

inspection, but is

NOT exempt from the licensing laws

MN Rules Require:

Designation of Responsible

- Master Electrician
- Power Limited Technician
- Licensed Maintenance Electrician
- Electrical Engineer by an Employer
