

Tour Date: Wednesday June 18, 2025

*** Attendees should wear long pants and close-toed shoes. Hardhats, eye protection, and ear protection will be provided by the plant.

10:30 AM – 11:10 AM - Presentation for ½ the group; other half will break into 2 groups to tour the plant

11:10 AM – 11:20 AM - Quick break for restrooms, checking messages

11:20 AM – 12:00 PM - Switch groups; tour groups now see a presentation; presentation group now splits into 2 groups for the tour

12:00 PM - Lunch

Address:

Black Dog Generating Plant

1400 East Black Dog Road

Burnsville, MN 55337

From 35W take the Black Dog Road exit and head EAST on Black Dog Road toward the plant. You will pass through 2 security gates: 1) the first road arm gate down by 35 W on Black Dog Road just prior to the bridge, and 2) the large black main plant security gate (Jurassic Park style gate) at the plant. I plan to have both security gates held open starting at 10:00 AM to allow for participants to enter so there should be no problem getting into the plant. Park in the upper parking lot right in front of the substation. Just take a right into the parking lot just as you pass through the large black main gate at the plant (see picture page 2).

Caution: Drive slow down the 2.5 mile drive from 35W to the plant. There is a public bike path the runs alongside and crosses Black Dog Road a few times. Watch out for unexpected bikers/walkers on the road.

If you have any problems, please call Leah Fehrenbach at 612-237-2837.
